

Name: _____

Date: _____

Write the following using numerals.

Example:
three hundreds, two tens, and six ones
321

1. four hundreds, six tens, and seven ones
2. two tens and three ones
3. nine hundreds, eight tens, and six ones
4. five hundreds, one ten, and five ones
5. one hundred, seven tens, and six ones
6. two hundreds and four ones

Solve the following problems. Show your work, please.

1. If I have two hundreds, seven tens, and nine ones, how many will I have if I add one hundred, four tens, and five ones?
2. If I have six hundreds, four tens, and three ones, how many will I have if I subtract two hundreds, three tens, and five ones?
